How to make Felt Pillows

Supplies Needed:

- Catnip
- Tissue Paper (optional)
- Cotton or Polyester Fiberfill for Stuffing
- Felt Fabric
- Scissors

Step 1: Cut Felt Fabric into desired size.

Step 2: Line two felt pieces together and cut a slit on each corner. Make them lengthy so it’ll be easier to tie them around each other later.

Step 3: Cut one line between each of the corners.

Step 4: Cut one line between the center and corner on the short side, and two lines from the corner to the center on the long side.

Drop off donations at any ACC location and cats and humans alike will be grateful! Please visit nycacc.org or email donate@nycacc.org for details.
Step 5: Take the corresponding fringes on each piece of felt and tie them together. It can be a little tricky, so it helps to keep them on a flat surface so you don’t get mixed up.

Step 6: Continue tying all the fringes until you’re finished with three sides. Leave one side open to put in all the goodies! (Tissue paper for a crumpling sound, cotton fills and catnip for extra fun!)

Step 7: Finish up and tie the last remaining fringes to close off the final side. After that, you are finished! You can also make other fun shapes as well. Enjoy!
